JOIN THE CONVERSATION

I support my colleagues and clients by...

- Being an ally and standing by them whenever their rights are marginalized and oppressed.
- Being present when they come to me and needed to be heard.
- Being honest and transparent as a professional.
- Ensuring that my actions always remain respectful and carried out without bias or stereotypes against them because of their salient identities.
- Treating them fairly and kindly.
- Treating them through the principles of equity, diversity, inclusion, anti-racism, and anti-oppressive principles.
